

Day 3: Letter Grade

Unit: Algorithm Writing

Day 3: Letter Grade

Do Now: Create a new project called letter grade. With the following elements

- A textbox called txtGrade
- A button with the text "Enter Grade"
- A label called lblGrade with no text

Letter Grade Algorithm Key Points:

Day 3: Letter Grade

Letter Grade Assignment:

- 1) Copy pseudo code from Google Doc posted on classroom into code window
- 2) Fill in code in for each part and test to ensure it works as intended
 - Part 1: displays the letter grade
 - Part 2: count and display the number of grades entered
 - Part 3: count and display each type of grade entered
 - Bonus: use formula to display running average of scores entered
